

Object::lookAt

Quaternion::lookRotation

Quaternion::fromMatrix

```
graph LR; A[Object::lookAt] --> C[Quaternion::fromMatrix]; B[Quaternion::lookRotation] --> C;
```

The diagram illustrates a dependency or relationship between three functions. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'Object::lookAt' and the bottom box contains 'Quaternion::lookRotation'. On the right, there is a single gray rectangular box containing the text 'Quaternion::fromMatrix'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box. The top arrow starts from the bottom-right corner of the 'Object::lookAt' box, and the bottom arrow starts from the top-right corner of the 'Quaternion::lookRotation' box. Both arrows converge towards the left edge of the 'Quaternion::fromMatrix' box.
